Schedule: Tuesday thru Saturday FLEX SCHEDULE

Purpose of role:

- ✚ Many people with diverse abilities want to work and have full and enriched lives. LIFE Services is a new community living service that recognizes those goals and provides a four-pillar approach to supporting people to achieve them: **Learning, Inclusion, Friendship, & Employment**, or LIFE. It recognizes that success in a job means more than just landing a job. It means building life skills, strengthening community connections and lifelong learning; and setting in place all those necessary pieces that sustain a job.
- ✚ The LIFE Services Coach will support people with diverse abilities to pursue vocational interests through volunteer and employment opportunities. As a LIFE Services Coach, you will collaborate with each person you work with as they explore their goals in areas such as building personal support networks, fitness and recreational activities, friendships and community connections. Each person will direct their own services by participating with you in a dynamic planning and evaluation process. You will be continually adapting people's support plans as their life needs or the needs of the employer change. Throughout the process, you will walk alongside people, facilitating, coaching, supporting, and guiding the person. As people develop their natural supports in their community, they will gradually shift their reliance away from the service.
- ✚ The job is a combination of in-person engagement as well as background support, including research, planning, design, networking, and administration. With LIFE Services being such a person-centered service, you will be expected to maintain a flexible schedule both in environment and time. Your workspace will often be in the community and on the go. It might be making a few calls or researching community opportunities in a café while you're waiting to pick someone up from an interview. You will meet people where it suits people best which may mean on evenings or weekends.

What you will do as a LIFE Services Coach:

- Discovering interests, skills, abilities and growth areas of each person.
- Use your vehicle to transport people to required community activities and appointments
- Creating support plans and strategies for success in collaboration with the people.
- Training, supporting and monitoring people supported in a variety of employment, community and learning settings in areas such as job skills, communication skills, self-determination and confidence building, transit training, personal safety, healthy lifestyles, and relationship building.
- Researching potential employers, and connecting people to employers, community activities and learning opportunities that match their interests, skills and abilities of the person
- Providing or arranging for training and workplace readiness.
